

Very Strong Showing by Membership as We Enter the Final Weeks

LF Picks Up a Game on KS; Lots of Movement Amongst the Top 7

Effective date: 2016-11-29

As the MIP becomes a distant memory, destined to return next season, membership came to play this weekend, and heated up the race for the final five weeks. There were several very strong runs toward the extremely elusive perfect performance, only to be dashed Sunday afternoon/evening. Four members of this most excellent community achieved 14-2 weeks: MS, DP, JP, and MM. Very impressive picking gentlemen!

While those wins were important for all four players, MS benefited the most, picking up a game on SS to move into fourth place, and gaining a win on LF and two on both SR and KS to inch a bit closer to the top. At four games back, MS is well positioned to make a move! DP and JP appreciated picking up games on the competition as well, moving up the ranks together, like the father and son combo they are, finding themselves in a tie for sixth place, at six games back.

LF picked up a game on our leader, KS, and now finds himself only one game out. Both KS and LF widened the gap with SR by a game as well, who is three games back of KS and two back of LF. As we saw this weekend, there is a lot of football left and plenty of room for movement. Special shout out to the kickers for showing up this weekend.

Thursday game this week, so get your picks in. Have a great week.

Happy Picking.

JP
